

Cybersecurity and the Supply Chain

Course Number: 1053

Length: 2 Days

Primary Delivery Method: Instructor-led live classroom

Alternative Delivery Methods: Instructor-led online (synchronous)

Course Description

Learn to address cybersecurity concerns through all tiers of the global supply chain and with companies directly involved in delivery of products, services, and solutions to the federal government. Lower levels of the supply chain are a major risk to prime contractors and the government. Smaller companies often lack the resources to properly secure their systems or controlled unclassified information (CUI). Proper oversight is key. This course provides guidance to ensure all members of the supply chain protect their systems and CUI from cybersecurity attacks.

Intended Audience

This course is intended for contracting personnel in the federal government and commercial sectors who need to provide oversight of cybersecurity regulations and compliance in the supply chain.

Course Learning Objectives

- Identify methods and techniques for contracting professionals to oversee and mitigate supply chain risks including cybersecurity
- Describe the concepts of cybersecurity and cybersecurity compliance as they relate to the roles of contracting professionals
- Describe the cybersecurity regulations and requirements that provide the foundation for contracting professionals to oversee the supply chain
- Explain how contracting professionals ensure that cybersecurity complies with regulations and requirements in the supply chain

Course Additional Features

- Producer Support
- Technical Support Team
- Dedicated In-House Accessibility/Section 508 Compliance
- Student Resource Guides

All details about the Additional Features are available on this page. [Click here to Explore](#)

Course Schedule

DAY ONE

Cybersecurity and the Supply Chain

MORNING	Lesson 1: Supply Chain Management and Cybersecurity Risks
LUNCH	
AFTERNOON	Lesson 2: Overview of Cybersecurity

DAY TWO	
MORNING	Lesson 3: Cybersecurity Regulations and Requirements
LUNCH	
AFTERNOON	Lesson 4: Cybersecurity Maturity Model Certification Program
	Course Evaluation

Learning Methods

Individual, small-group, and large-group exercises; lecture, discussion

Credits

National Association of State Boards of Accountancy (NASBA)

- Field of Study: Finance
- Level: Basic
- CPEs: 16

Professional Development Units (PDUs)

- Credits: 14

Continuous Learning Points (CLPs)

- Credits: 16

Management Concepts Certificate Program Relationship

This is a core course in the following program(s):

- [Supply Chain Management](#)

Cybersecurity and the Supply Chain

- [Program Protection - Cyber and AI](#)

This is an elective course in the following program(s):

- [Enterprise Risk Management](#)
- [Internal Control](#)

Prerequisites

There are no prerequisites for this course.

Pework

There is no prework required for this course.

Requirements for Successful Completion
