

Evaluating a Contractor's Performance

Course Number: 1126

Length: 3 Days

Primary Delivery Method: Instructor-led live classroom

Alternative Delivery Methods: Instructor-led online (synchronous)

Course Description

Explore ways to oversee and optimize contractor performance as a COR or program manager in order to maximize your spend while fulfilling mission needs. The processes required to elicit successful performance require planning, focused monitoring and surveillance, and other remedies that yield high-quality services and deliverables. You will become familiar with the Earned Value Management System (EVMS), chart tools, and remedy processes, such as withholding progress payments and terminations.

Intended Audience

This course is designed for contracting officer's representatives, program managers, project officers who have responsibility to oversee contractor performance.

Course Learning Objectives

- Explain when it is necessary to evaluate a contractor's performance
- Plan the evaluation
- Evaluate a contractor's performance
- Take corrective action
- Document the results

Course Additional Features

- Producer Support
- Technical Support Team
- Dedicated In-House Accessibility/Section 508 Compliance
- Student Resource Guides

All details about the Additional Features are available on this page. [Click here to Explore](#)
