

# Breakthrough Problem Solving

Course Number: 4063

Length: 3 Days

Primary Delivery Method: Instructor-led live classroom

Alternative Delivery Methods: Instructor-led online (synchronous)

## Course Description

Challenge yourself to overcome common barriers and transform your thinking by engaging in problem solving designed to explore alternative perspectives and novel solutions. The concepts presented in *Breakthrough Problem Solving* are a logical follow-on to the skills learned in *Critical Thinking for Problem Solving*. *Breakthrough Problem Solving* provides an opportunity to harness those skills and put them into practice to reframe and overcome organizational issues.

## Intended Audience

This course is designed for leaders and managers who want to think in new ways about problems, issues, or challenges in order to break through common perceived barriers.

## Course Learning Objectives

- Analyze the problem-solving process
- Assess the current state and explore possible alternatives for accomplishing a shared vision
- Analyze organizational problems by considering stakeholder viewpoints
- Overcome barriers that impede progress or promote embedded thinking within an organization
- Demonstrate strategies used to create and sustain an adaptable organizational culture
- Prepare a strategic plan to overcome the current state

## Course Additional Features

- Producer Support
- Technical Support Team
- Extended Learning Bursts
- Dedicated In-House Accessibility/Section 508 Compliance

All details about the Additional Features are available on this page. [Click here to Explore](#)
