

# Championing Data: Building a Data-Savvy Federal Workforce

**Course Number:** 4608

**Length:** 2 Days

**Primary Delivery Method:** Instructor-led live classroom

**Alternative Delivery Methods:** Instructor-led online (synchronous)

## Course Description

---

Strengthen your ability to influence a workplace where data is effectively used to drive insights and inform strategic initiatives. This course equips supervisors and data champions with strategies to connect technical and non-technical teams, identify and apply data tools effectively, and foster a culture where data informs action. Additionally, you will explore techniques to address resistance, advocate for responsible data use, and implement practical initiatives that yield measurable improvements.

## Intended Audience

---

This course is designed for supervisors and professionals who use data to inform decisions and want to promote data-driven practices within their teams and organizations.

## Client-Provided Facility Requirements

---

- Internet required for instructor computer

## Course Learning Objectives

---

- Describe the role of data literacy, data culture, and federal regulations in shaping effective data use within government agencies
- Identify and align data requirements to align with organizational, team and project objectives
- Develop strategies to bridge technical and non-technical teams and foster collaboration
- Apply advanced data literacy techniques to facilitate analyzing data, making decisions, and driving initiatives within federal frameworks

## Course Additional Features

---

- Producer Support
- Technical Support Team
- Extended Learning Bursts
- Dedicated In-House Accessibility/Section 508 Compliance
- Student Resource Guides

All details about the Additional Features are available on this page. [Click here to Explore](#)

## Course Schedule
