

Budgeting and Accounting: Making the Connection

Course Number: 5106

Length: 2 Days

Primary Delivery Method: Instructor-led live classroom

Alternative Delivery Methods: Instructor-led online (synchronous)

Course Description

Gain a deep understanding and insight into why federal budgeting and accounting is challenging for accountants and budgeteers alike. Eliminate your insecurities about the requirements of federal budgeting and accounting with an introduction to these functions, as well as their integration into the federal financial management process. Through a discussion-based class where you will share experiences with others in similar roles, you will learn about these concepts to improve your approach to financial management.

Intended Audience

This course is designed for participants from several different backgrounds: accountants who want insight into federal budgeting, budget analysts who want insight into federal accounting, and systems people who want a basic understanding of federal budgeting and accounting to implement new financial systems.

Course Learning Objectives

- Make the connection between budgeting and accounting
- Apply budget and accounting terminology appropriately
- Track budgetary and proprietary accounting transactions through the budget execution process
- Describe the use of the U.S. Standard General Ledger account structure
- Relate budget obligations to agency assets, liabilities, and expenses
- Determine unfunded budget requirements from accounting reports
- Improve budget estimating with accounting information

Course Additional Features

- Producer Support
- Technical Support Team
- Post-Course Connection
- Extended Learning Bursts
