

Federal Financial Reporting and Your FM Career Mini Course

Course Number: 5213

Length: 2.5 hours

Primary Delivery Method: Instructor-led live classroom

Alternative Delivery Methods: Instructor-led online (synchronous)

Course Description

This 2.5-hour mini course provides the fundamental principles of federal financial reporting, offering a starting point for understanding how it supports effective financial management (FM) in a federal career. Participants will learn the key legal foundations, accounting approaches, and the role financial reports play in agency decision-making and compliance. By the end of the mini-course, participants will be better equipped to use financial reporting as a tool to advance their FM careers and ensure fiscal responsibility in federal agencies.

Intended Audience

This course is ideal for federal financial managers, accountants, and those beginning their journey in federal financial management who seek to understand the basics of financial reporting and its importance in building a successful FM career.

Client-Provided Facility Requirements

- White board with markers and eraser

Course Learning Objectives

- Describe the purpose of federal financial reporting and identify users of these reports
- Identify the legal foundations and historical evolution of federal financial reporting requirements
- Distinguish between budgetary and proprietary accounting approaches and applications
- Describe how the USSGL contributes to accurate financial reporting
- Explain how financial reporting relates to agency strategic planning and reporting

Course Schedule
