

Managing for Success in a Performance Audit

Course Number: 5320

Length: 3 Days

Primary Delivery Method: Instructor-led live classroom

Alternative Delivery Methods: Instructor-led online (synchronous)

Course Description

Discover how effective performance audits are performed by reviewing auditing basics and learning to develop an audit-focused mentality when establishing a new program and planning for audits. You will also use analytical techniques to meet organizational expectations and respond to challenges in the federal environment.

Intended Audience

This course is designed for auditors, auditees, accountants, and those who conduct performance audits, and for agency representatives who want to be better prepared for performance audits of their programs and processes.

Client-Provided Facility Requirements

- White board with markers and eraser
- Internet required for instructor computer

Course Learning Objectives

- Examine the value of a performance audit to a government program
- Determine the process and appropriate analytical techniques needed to conduct a performance audit
- Understand the performance audit findings and recommendations process
- Understand the corrective action process from an auditor and auditee perspective
- Evaluate how business process review and reorganization, as well as balanced scorecards with specific KPIs, track program performance, measure improvement, and align with performance auditing
- Create the framework for a performance audit

Course Additional Features

- Producer Support
- Technical Support Team
- Dedicated In-House Accessibility/Section 508 Compliance
- Student Resource Guides

All details about the Additional Features are available on this page. [Click here to Explore](#)
