

# Acquisition of Agile Services

Course Number: 6002

Length: 3 Days

Primary Delivery Method: Instructor-led live classroom

Alternative Delivery Methods: Instructor-led online (synchronous)

## Course Description

Discover methods to apply an Agile acquisition framework within the confines of the *Federal Acquisition Regulation* (FAR). You will gain an understanding of an Agile acquisition approach and the challenges of applying this framework in the federal environment through role-playing activities and federal case studies. You will participate in hands-on exercises that reinforce your learning after examining real contracts where Agile has been used successfully.

## Intended Audience

This course is intended for IT program and project managers and contract personnel who work to align the acquisition process with the technology cycle.

## Course Learning Objectives

- Recognize key principles of the Agile methodology
- Describe the characteristics of an effective Agile team
- Effectively plan an Agile acquisition
- Select the contracting approach for an Agile project
- Effectively monitor, control, and report on Agile acquisition projects
- Identify best practices for implementation of an Agile acquisition

## Course Schedule

DAY ONE	
MORNING	Lesson 1: Agile Development
LUNCH	
AFTERNOON	Lesson 2: Agile Acquisition in the Federal Government

DAY TWO
