

Government Product Owner

Course Number: 6004

Length: 2 Days

Primary Delivery Method: Instructor-led live classroom

Alternative Delivery Methods: Instructor-led online (synchronous)

Course Description

Learn how to effectively manage a Scrum Team as a Product Owner responsible for evaluating and controlling delivery, communicating across teams, and making final decisions to approve requirements. In this course, you will explore the responsibilities and expectations of the Product Owner role and learn how a Product Owner can infuse federal priorities, goals, and vision into a development team. You will gain the skills needed to manage the product backlog and move the project forward with each iteration.

Intended Audience

This course is intended for entry- and intermediate-level program and project managers.

Course Learning Objectives

- Understand concepts of the Agile/Scrum environment as implemented in government projects
- Demonstrate assembly of a skilled Agile Scrum Team and apply effective communication strategies with stakeholders
- Demonstrate construction of an effective Agile/Scrum vision
- Describe and demonstrate concepts of using Release Management in Agile/Scrum deployment of government projects
- Understand and apply basic concepts of creating user stories and their value in Product Backlog grooming
- Understand and define basic principles of Scrum project execution, reviews, and necessary definitions of done for completion of project deliverable

Course Additional Features

- Producer Support
- Technical Support Team
- Dedicated In-House Accessibility/Section 508 Compliance
- Student Resource Guides

All details about the Additional Features are available on this page. [Click here to Explore](#)
