

FPM 134 - Fundamentals of Leading Projects and Programs

Course Number: 6876

Length: 2 Days

Primary Delivery Method: Instructor-led live classroom

Alternative Delivery Methods: Instructor-led online (synchronous)

Course Description

Learn key leadership skills, including building relationships, solving problems, and managing conflict. You will apply the concepts and skills gained throughout the course to exercises based on real-world scenarios. This course meets the requirements for the Federal Acquisition Certification for Program and Project Managers (FAC-P/PM) at the Entry Level.

Intended Audience

This course is intended for new program and project management professionals seeking their FAC-P/PM Entry-Level certification.

Course Learning Objectives

- Explain the role of leadership in project management
- Hold team members accountable for results
- Recognize when different conflict management approaches are most effective
- Use effective oral and written communication skills with stakeholders
- Discuss leadership techniques to maximize customer satisfaction

Course Additional Features

- Producer Support
- Technical Support Team
- Extended Learning Bursts
- Dedicated In-House Accessibility/Section 508 Compliance
- Student Resource Guides
- AI Prompts

All details about the Additional Features are available on this page. [Click here to Explore](#)
