

# FPM 121: Fundamentals of Project and Program Management

**Course Number:** 6896

**Length:** 5 Days

**Primary Delivery Method:** Instructor-led live classroom

**Alternative Delivery Methods:** Instructor-led online (synchronous)

## Course Description

---

Learn how successful project managers overcome the collaboration and communication challenges that come with being a member of an integrated project team. You will participate in exercises that reinforce concepts learned in the prerequisite course. You will craft and communicate solutions to simulated project management challenges, including identifying capability gaps and selecting a solution. This course follows successful completion of the online FPM 120 (Part I) entry-level fundamentals course and FPM 120A & 120B (Acquisition Fundamentals of Project and Program Management).

## Intended Audience

---

This course is designed for new program and project management professionals seeking their FAC-P/PM level 1 certification.

## Course Learning Objectives

---

- Introduce FPM 121 course material and review of FPM 120 series course content
- Examine program/project performance in terms of budget, schedule, and scope
- Integrate multiple roles and responsibilities as invested resources to make program/project decisions
- Justify program/project management decisions as part of problem-solving exercises
- Develop elements of key program/project management deliverables to plan a program or project throughout its life cycle
- Define the process for developing program specification requirements and performance work statement that defines the project, addressing roles and missions
- Describe the source selection process, acquisition planning, market research, request for proposal (RFP), and evaluation of proposals and contract award
- Connect principles of systems engineering to monitor and control a program/project
- Interpret information in case studies, real-world scenarios, and project summaries
- Examine program/project performance in terms of budget, schedule, and scope
- Review and summarize FPM 121 course objectives

## Course Additional Features

---

- Producer Support
- Technical Support Team
- Extended Learning Bursts
- Dedicated In-House Accessibility/Section 508 Compliance
- Student Resource Guides

# FPM 121: Fundamentals of Project and Program Management

All details about the Additional Features are available on this page. [Click here to Explore](#)

## Course Schedule

DAY ONE	
MORNING	Module 1: Introduction
	Module 2: The Integrated Project Team
LUNCH	
AFTERNOON	Module 3: Justifying the Solution

DAY TWO	
MORNING	Module 3: Justifying the Solution (cont.)
LUNCH	
AFTERNOON	Module 4: Developing the Requirements

DAY THREE	
MORNING	Module 4: Developing the Requirements (cont.)
LUNCH	
AFTERNOON	Module 5: Planning the Acquisition

DAY FOUR	
MORNING	Module 5: Planning the Acquisition (cont.)
LUNCH	
AFTERNOON	Module 6: A Systems Engineering Approach

# FPM 121: Fundamentals of Project and Program Management

## DAY FIVE

MORNING	Module 7: Measuring Performance
LUNCH	
AFTERNOON	Module 8: Summary and Assessment

## Learning Methods

---

Individual, small-group, and large-group exercises; lecture, discussion, and case study; Problem-based scenarios and application exercises

## Credits

---

### Professional Development Units (PDUs)

- Credits: 35

### Continuous Learning Points (CLPs)

- Credits: 40

## Prerequisites

---

### Mandatory

- FPM 120 and FPM 120A & 120B (Acquisition Fundamentals of Project and Program Management I)

## Pework

---

There is no prework required for this course.

## Requirements for Successful Completion

---

Full (100%) attendance is expected and required. Successful completion of the course depends on full class attendance and active participation in individual and group exercises.

Participants must complete individual and team exercises and participate through briefings and presentations with a grade of 80% or higher.

## Follow-On Resources

---
