

Frequently Asked Questions

Course Title: Cybersecurity for Contracting Professionals

Course #: 1040

Duration: 2 Days

Delivery Method: Instructor-led live classroom

Alternative Delivery Methods: Instructor-led online (synchronous)

1. What business or organizational need does this course address?

Learn how to safeguard your contracts by understanding today's rapidly changing cybersecurity regulations and their impact on the contracting world. You will become vigilant in watching for any cybersecurity threats and be able to quickly react to any possible breach.

Note: This course is focused on government and contractor systems and the sharing of controlled unclassified information (CUI) as part of the acquisition process.

2. Who should attend?

This course is intended for contracting personnel in the federal government and commercial sectors who want to know how cybersecurity regulations affect their contracts and how their organization can remain compliant.

3. What will I learn how to do in this course?

- Examine cybersecurity threats and the role contracting professionals play in cybersecurity management
- Determine which cybersecurity laws and regulations apply to your contracting organization
- Measure the impact of various cybersecurity standards, controls, and frameworks on federal acquisitions
- Evaluate potential cybersecurity threats during acquisition planning and contract performance

4. What kinds of activities are included in this course?

Individual, small-group, and large-group exercises; facilitated discussion, case studies

5. Are there prerequisites for this course?

There are no prerequisites for this course.

6. Do I have to complete any prework for the course?
