

Frequently Asked Questions

Course Title: Cybersecurity and the Supply Chain

Course #: 1053

Duration: 2 Days

Delivery Method: Instructor-led live classroom

Alternative Delivery Methods: Instructor-led online (synchronous)

1. What business or organizational need does this course address?

Learn to address cybersecurity concerns through all tiers of the global supply chain and with companies directly involved in delivery of products, services, and solutions to the federal government. Lower levels of the supply chain are a major risk to prime contractors and the government. Smaller companies often lack the resources to properly secure their systems or controlled unclassified information (CUI). Proper oversight is key. This course provides guidance to ensure all members of the supply chain protect their systems and CUI from cybersecurity attacks.

2. Who should attend?

This course is intended for contracting personnel in the federal government and commercial sectors who need to provide oversight of cybersecurity regulations and compliance in the supply chain.

3. What will I learn how to do in this course?

- Identify methods and techniques for contracting professionals to oversee and mitigate supply chain risks including cybersecurity
- Describe the concepts of cybersecurity and cybersecurity compliance as they relate to the roles of contracting professionals
- Describe the cybersecurity regulations and requirements that provide the foundation for contracting professionals to oversee the supply chain
- Explain how contracting professionals ensure that cybersecurity complies with regulations and requirements in the supply chain

4. What kinds of activities are included in this course?

Individual, small-group, and large-group exercises; lecture, discussion

5. Are there prerequisites for this course?

There are no prerequisites for this course.

Frequently Asked Questions

6. Do I have to complete any prework for the course?

There is no prework required for this course.

7. Is this course applicable toward a professional certification?

No, this course is not applicable toward a professional certification. However, many Management Concepts courses do prepare you for professional certification programs. Click [here](#) to see a full list of professional certification programs that are supported by Management Concepts training courses.

8. Does this course count for credit toward a Management Concepts Certificate Program?

This is a core course in the following program(s):

- [Supply Chain Management](#)
- [Program Protection - Cyber and AI](#)

This is an elective course in the following program(s):

- [Enterprise Risk Management](#)
- [Internal Control](#)

9. What credits do I earn by completing this course?

The following credits are available for this course:

NASBA CPEs: 16

NASBA Field of Study: Finance

NASBA Level: Basic

CEUs: 1.3

PDU: 14

CLPs: 16

10. What course(s) do you recommend after I complete this course?

- [Cybersecurity for Contracting Professionals](#)
- [Supply Chain Management Fundamentals](#)
- [Conducting Acquisitions for Cloud Services](#)

Frequently Asked Questions

11. What are Additional Features?

Most courses and training solutions have **Additional Features** designed to help every learner master and retain the concepts explored in the course. You can see which Additional Features are added to this course on the course page under the **Learning Objectives & Additional Features** tab – and for a more detailed exploration of our Additional Features, you can visit [this web page](#).
