

Frequently Asked Questions

Course Title: Championing Data: Building a Data-Savvy Federal Workforce

Course #: 4608

Duration: 2 Days

Delivery Method: Instructor-led live classroom

Alternative Delivery Methods: Instructor-led online (synchronous)

1. What business or organizational need does this course address?

Strengthen your ability to influence a workplace where data is effectively used to drive insights and inform strategic initiatives. This course equips supervisors and data champions with strategies to connect technical and non-technical teams, identify and apply data tools effectively, and foster a culture where data informs action. Additionally, you will explore techniques to address resistance, advocate for responsible data use, and implement practical initiatives that yield measurable improvements.

2. Who should attend?

This course is designed for supervisors and professionals who use data to inform decisions and want to promote data-driven practices within their teams and organizations.

3. What will I learn how to do in this course?

- Describe the role of data literacy, data culture, and federal regulations in shaping effective data use within government agencies
- Identify and align data requirements to align with organizational, team and project objectives
- Develop strategies to bridge technical and non-technical teams and foster collaboration
- Apply advanced data literacy techniques to facilitate analyzing data, making decisions, and driving initiatives within federal frameworks

4. What kinds of activities are included in this course?

Individual, small-group, and large-group exercises; lecture, discussion, action planning
