

Frequently Asked Questions

Course Title: Managing for Success in a Performance Audit

Course #: 5320

Duration: 3 Days

Delivery Method: Instructor-led live classroom

Alternative Delivery Methods: Instructor-led online (synchronous)

1. What business or organizational need does this course address?

Discover how effective performance audits are performed by reviewing auditing basics and learning to develop an audit-focused mentality when establishing a new program and planning for audits. You will also use analytical techniques to meet organizational expectations and respond to challenges in the federal environment.

2. Who should attend?

This course is designed for auditors, auditees, accountants, and those who conduct performance audits, and for agency representatives who want to be better prepared for performance audits of their programs and processes.

3. What will I learn how to do in this course?

- Examine the value of a performance audit to a government program
- Determine the process and appropriate analytical techniques needed to conduct a performance audit
- Understand the performance audit findings and recommendations process
- Understand the corrective action process from an auditor and auditee perspective
- Evaluate how business process review and reorganization, as well as balanced scorecards with specific KPIs, track program performance, measure improvement, and align with performance auditing
- Create the framework for a performance audit

4. What kinds of activities are included in this course?

Individual, small-group, and large-group exercises; lecture, discussion, and case study

5. Are there prerequisites for this course?

Suggested:

The following prerequisite is strongly recommended, as well as an accounting degree:

- [Performance Auditing](#)
