

# Frequently Asked Questions

**Course Title:** Applying Agile Scrum Master Practices in the Federal Environment

**Course #:** 6005

**Duration:** 2 Days

**Delivery Method:** Instructor-led live classroom

**Alternative Delivery Methods:** Instructor-led online (synchronous)

## 1. What business or organizational need does this course address?

Discover how Scrum Masters using an Agile framework can effectively implement adaptive approaches to product design, development, and deployment in the context of federal project management. You will learn the roles and responsibilities of a federal Scrum Master during a project's lifecycle. Upon completion of this course, you will be able to effectively implement Scrum processes and practices in the federal environment and support other Agile/Scrum members on the road to project success.

## 2. Who should attend?

The federal Scrum Master course is suitable for federal contractors, managers, programmers, testers, analysts, product managers, and anyone who is interested in becoming a practicing Scrum Master in the federal environment.

## 3. What will I learn how to do in this course?

- Understand and describe concepts of the Agile/Scrum environment
- Apply Agile framework principles and techniques
- Examine the components of Scrum Master planning
- Analyze techniques and tools of successful federal Scrum Masters
- Examine how to manage and monitor Scrum projects

## 4. What kinds of activities are included in this course?
