

# Frequently Asked Questions

**Course Title:** Developing Agile Requirements and User Stories in the Federal Environment

**Course #:** 6007

**Duration:** 2 Days

**Delivery Method:** Instructor-led live classroom

**Alternative Delivery Methods:** Instructor-led online (synchronous)

## 1. What business or organizational need does this course address?

Discover how user stories help to define the functions a business system must provide and explore how to facilitate defining requirements on an Agile project. You will learn the techniques for developing a user story via story cards, personas, and role cards through hands-on exercises and applications. You will practice other Agile approaches, such as release planning and backlog grooming, which ensures that the work being done is the work that is needed.

## 2. Who should attend?

This course is intended for entry and intermediate level Program and Project Managers and team members.

## 3. What will I learn how to do in this course?

- Describe the Scrum approach to Agile project management
- Explain how effective user stories contribute to project deliverables
- Compare user stories and epics in the production of project outcomes
- Create, prioritize, and track user stories for a federal project
- Explain the role of user stories in grooming the Product Backlog and determining completion and acceptance of project deliverables

## 4. What kinds of activities are included in this course?

Presentation, class discussions, practical activities, and group and individual exercises

## 5. Are there prerequisites for this course?

Suggested:

- [Agile Project Management for the Federal Environment](#)
