

Frequently Asked Questions

Course Title: Making Decisions Using Earned Value

Course #: 6102

Duration: 2 Days

Delivery Method: Instructor-led live classroom

Alternative Delivery Methods: Instructor-led online (synchronous)

1. What business or organizational need does this course address?

Discover how earned value management is a powerful tool for not only capturing and analyzing relevant numbers but managing projects and programs to improve visibility and control. You will learn to identify cost and schedule overruns, compare actual work against baselines, and identify risk warning signs.

2. Who should attend?

This course is intended for intermediate level program and project managers.

3. What will I learn how to do in this course?

- Define key concepts of earned value management (EVM)
- List the considerations needed to implement EVM effectively
- Create and evaluate a performance measurement baseline (PMB) from plan components
- Compare planned project performance with actual performance results
- Measure project performance using earned value metrics
- Use EVM data to forecast budget and schedule completion
- Create a status report based on objective EVM metrics
- Analyze EVM data to make project decisions and determine corrective measures

4. What kinds of activities are included in this course?

Presentation, class discussions, practical activities, and group and individual exercises

5. Are there prerequisites for this course?

Suggested:

- Strong knowledge of project management skills at the application level
