

# Frequently Asked Questions

**Course Title:** High Value Requirements Management

**Course #:** 6134

**Duration:** 3 Days

**Delivery Method:** Instructor-led live classroom

**Alternative Delivery Methods:** Instructor-led online (synchronous); Self-study online

## 1. What business or organizational need does this course address?

Learn to plan for requirements activities, manage project stakeholders and use a requirements management lifecycle to ensure that the project's solution accurately aligns with the stated needs. By implementing the requirements management lifecycle, you will gain skills to achieve stakeholder engagement, tailor requirement tools and techniques to match the project need, write requirements, establish traceability, perform verification and validation, establish, and maintain a requirements baseline. You will return to your workplace with best practices for managing requirements throughout the project lifecycle.

## 2. Who should attend?

This course is intended for program managers, project managers, business analysts, or requirements managers who want to learn how to organize, manage, and execute requirement activities and functions throughout the project lifecycle.

## 3. What will I learn how to do in this course?

- Explain the importance of requirements for project success
- Apply a proven requirements management lifecycle
- Conduct requirements planning
- Use requirements elicitation techniques tailored to the project environment
- Derive and write requirements using use cases and user stories
- Analyze requirements to ensure the completeness of the requirements
- Use verification and validation (V&V) methods to ensure quality and customer acceptance
- Establish and manage changes to the requirements baseline

## 4. What kinds of activities are included in this course?

Presentation, class discussions, practical activities, and group and individual exercises
