

Frequently Asked Questions

Course Title: Assessing and Recovering Troubled Projects

Course #: 6184

Duration: 2 Days

Delivery Method: Instructor-led live classroom

1. What business or organizational need does this course address?

Examine ways to implement corrective action to get troubled projects back on track and successfully completed. Understanding both the human and process dimensions of successfully assessing and recovering challenged projects is key. You will learn to determine the symptoms of a challenged project, create an assessment and recovery process, and prevent future project failure. In addition, you will practice the concepts and knowledge you have gained through team exercises.

2. Who should attend?

This course is intended for advanced level Program and Project managers.

3. What will I learn how to do in this course?

- Analyze scenarios to identify symptoms of challenged projects
- Establish a process for assessing and recovering challenged projects
- Demonstrate the assessment and recovery process initiating phase
- Explain the assessment and recovery process planning phase
- Explain the assessment and recovery process assessment phase
- Explain the assessment and recovery process recovery phase
